DAILY GAZETTE.

From the Louisville Journal. The White Flag Movement.

We suppose that no intelligent man in the city needs to be told that the project for a peace meeting in this city last Saturday aprilaty R. J. RICHARDSON, Janesville, Agent. night was a secession project. It originated with secessionists, and was, so far as executed at all, executed by secessionists. It was secessionism with its face under a white flag. Mr. Trabue, when he found the Union men to constitute seven-eighths of the courthouse meeting, called upon the "secessionists" to go to Concert Hall, and the secessionists, and only they, went to Concert Hall, where their meeting was officered and | DR. C. being a regular Physician, with regers their addressed by secessionists and only by secessionists. They chose to make use of some Union names, but it was a trick, a of human shill.

that it would be peace and white flags. If gny one had made such a suggestion, he our fierce secessionists, our raging disunionists, our terrible fire-eaters, our dreadful would have been laughed at. The idea that war-spirits, who, from the first, have been endeavoring to shame. Kentucky from her neutrality and to induce her to make common cause with the south in this horrible war, would, in the moment of their utmost desperation, their mouths frothing and their eyes bloodshot with fury, go to work in a peace-movement and cover themselves all over with white flags—the idea that these tigers, wolves, catamonts, would take the visage of lambs and insist upon following shepherds with white handkerchiefs mounted upon the ends of their crooks and flying an extraordinary and unprecedent distribution age. over their sheep-cots, would have been too absurd and ludicrous not to be laughed at Holden, Remp & Co., by every one to whom it might have been H.B. BRYANT, D. V. BELL, H. D. STRATTON. auggested.

These bogus advocates of peace passed a series of resolutions. Look at the resolutions. They are a carriosity. They say nothing about the conditions of peace—they pears from them, the authors would just as soon have peace on one condition as on another. They don't seem to care whether peace is made by the division of the Union | into two confederacies, by its separation into half a dozen confederacies, by the stipalation of the payment of tribute by the north to the south or by the south to the north, or by any other sort of treaty what ever. Their country's honor is nothing, her prosperity nothing-peace, peace, at all hazards, peace upon any terms, is everything. And these peace people call upon their accomplices and dupes to have a white | 1ht tamorey to m - the 1857 kn own to the world, is that raising next Saturday, each one wear. our standard. flag raising next Saturday, each one wearing a white resette or ribbon, and invoke 1st Premiums Assarded to this College hem to deck houses, steamboats, cars, carringes, hucks, buggies, wagons, drays, and wheelbarrows, with white flags. Fellows stuck all over with revolvers, bowies, dirks, &c., are to wave white flags in their hands as they walk the streets or step up to the bars of coffee houses. If one of them can't conveniently get a white flag, he must throw off his coat and display his shirt, unless, like little Dicky Dont's, it happens to display itself. By the way, they would make a very interesting procession, each with his

shirt-tail out "-the emblem of peace. Our readers may remember that the adoption, or rather the pretended adoption, of armed mentrality by the Kentucky sece, nonists was a sudden, an instantaneous thing. It was as sudden as it was universal. One day all of the secession organs and leaders in Kentucky were denouncing neutrality as the absurdest and vilest and most infamous thing ever concocted, and, two or three days afterwards, the whole of them adopted it as their policy and pledged themselves to its scrupulous observance. The entire movement originated in a common centre of control, and, throughout Kentucky, it was universal. Evidently this white flag movement Just its cived, a large lot of has originated in the same centre of control, and no doubt it is intended to be in like manner universal. Simultaneously with the manifestation in Louisville, mant- The following as some of the retail prices: festations of the same sort seem to have wen made in numerous other counties. All over the state, the consumption of white

lry-goods is likely to be tremendous. It is impossible to treat this movement, knowing as we do who originated it and why they originated it, with any sort of re- empired for putting up fresh finite or in, and emili spect. The friends of the Union will not, cannot, look upon it with respect. They have no more regard for secession under a white flag than under the blackest flag that the statistical for the pound and second for the pound and white flag than under the blackest flag that the statistical for the pound and the statistical for the statistical for the statistical flag than under the blackest flag that the statistical for the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical flag than under the blackest flag that the statistical fl have no more regard for secession under a recognize but one flag, the old Star-Spangled Banner, which they hope to live under and die under. It was the streaming meteor of freedom to their fathers; they are resolved that it shall be the same to their children The white upon its folds is an emblem of peace; the red proclaims to the nations that we shrink not from war; and the blue, the color of the sky, tells, that, whether in peace or in war, our appeal is to heaven.

THE ARMY AT PILOT KNOB AND IRON-TON. MISSOURI.-A gentleman of this city who has just reached Chicago, direct from Pilot Knob, (via St. Louis,) informs us that our boys" of the Nineteenth Illinois regiment, Col. Turchin, and all the other Illinois regiments, thereabouts are very comfortably situated, and improving in health, drill and efficiency every day. The Nine-teenth had one hundred and fifty-six on the sick list when they reached Pilot Knob, and now the sick list has dwindled down to only ed business in New York, and that he received at the

Knob on Saturday, a federal army of nine thousand men had been gathered there, and the line of the Iron Mountain Railroad is hterally dotted with camps of detachments of regiments or companies, who are guard-

ing the bridges, eniverts and track. The officers at Ironton and Pilot Knob feel perfectly confident now of their ability to repel Hardee's rebel army, should they make an attack, as it is expected and hoped they soon will. Our artiflery commands the approaches from every direction, and the troops are increasing in numbers and improving in efficiency continually. At the head quarters of Gen. Fremont,

THE Democrat will continue to be a faithful advocate and supporter of the principles of the rapubilcan party. Its energies will be especially devoted to
the west—to the advocacy of western interests and the
assertion of western rights. The administration of
Abraham Lincoln shall receive its cordial and unfultering support. The great measures of u. Paelite railroad
on the central route; tree hands for the landless; the
improvement of river navigation; retrenchment and
reform in all the departments of the federal government, will be urged with that zeul and devotion which
have won for the Democrat its present position. On all
questions it will boldy esponse the right, and only seek
its advancement through the public good.

ITS NEWS, LOCAL AND MISCELLAMEOUS DEPARTMENTS, shall be all that readers could desire. The Political, Agricultural and Magnatacturing interests of the coun-try shall receive due attention.

THE COMMERCIAL CHARACTER of the Democrat is well established. This important interest is under the management of one thoroughly familiar with commercial adairs, and we pledge our horoughlist its figures shall always be the true index of trade here, while is furnished daily more commercial news than any other paper in Missouri.

From the Louisville Journal. The White Fing Movement.

We suppose that no intelligent man in the city needs to be told that the project for a peace meeting in this city last Saturday night was a secession project. It originating the Agency of S. P. Bounds. ed with secessionists, and was, so far as ex-ecuted at all, executed by secessionists. It was secessionism with its face under a white flag. Mr. Trabue, when he found the Union men to constitute seven-eighths of the courthouse meeting, called upon the "secessionists" to go to Concert Hall, and the secessionists, and only they, went to Concert Hall, where their meeting was officered and addressed by secessionists and only by secessionists. They chose to make use of some Union names, but it was a trick, a fraud, an imposition.

We have all been for some time expecting that the secessionists would get up some new dodge, but none of us could guess what it would be. Nobody, we are sure, dreamed that it would be peace and white flags. If eny one had made such a suggestion, he would have been laughed at. The idea that our fierce secessionists, our raging disun-ionists, our terrible fire-eaters, our dreadful war-spirits, who, from the first, have been endeavoring to shame Kentucky from her neutrality and to induce her to make common cause with the south in this horrible war, would, in the moment of their utmost desperation, their mouths frothing and their eyes bloodshot with fary, go to work in a peace-movement and cover themselves all over with white flags-the idea that these tigers, wolves, catamouts, would take the visage of lambs and insist upon following shepherds with white handkerchiefs mounted upon the ends of their crooks and flying over their sheep-cots, would have been too absurd and ludicrous not to be laughed at by every one to whom it might have been

suggested.
These bogus advocates of peace passed a series of resolutions. Look at the resolutions. They are a curiosity. They say nothing about the conditions of peace—they simply cry for peace. For aught that appears from them, the authors would just as soon have peace on one condition as on an area. soon have peace on one condition as on an other. They don't seem to care whether peace is made by the division of the Union into two confederacies, by its separation into half a dozen confederacies, by the stipnlation of the payment of tribute by the north to the south or by the south to the north, or by any other sort of treaty what-ever. Their country's honor is nothing, her prosperity nothing-peace, peace, at all hazards, peace upon any terms, is every-thing. And these peace-people call upon their accomplices and dupes to have a white flag raising next Saturday, each one wearing a white rosette or ribbon, and invoke them to deck houses, steambuats, cars, car riages, hacks, buggies, wagons, drays, and wheelbarrows, with white flags. Fellows stuck all over with revolvers, bowies, dirks, &c., are to wave white flags in their hands as they walk the streets or step year. It is as they walk the atreets or step up to the hars of coffee-houses. If one of them can't conveniently get a white flag, he must throw off his coat and display his shirt, unless, like little Dicky Dout's, it happens to display itself. By the way, they would make a very interesting procession, each with his "shirt-tail out"—the emblem of peace.

Our readers may remember that the adoption, or rather the pretended adoption, of armed neutrality by the Kentucky secessionists was a sudden, an instantaneous thing. It was as sudden as it was universal. One day all of the secession organs and leaders in Kentucky were denouncing neutrality as the absurdest and vilest and most infamous thing ever concocted, and, two or three days afterwards, the whole of them adopted it as their policy and pledged themselves to its scrupulous observance. The entire movement originated in a common centre of control, and, throughout Kentucky, it was universal. Evidently this white flag movement has originated in the same centre of control, and no doubt it is intended to be in like manner universal. Simultaneously with the manifestation in Louisville, manifestations of the same sort seem to have been made in numerous other counties. All over the state, the consumption of white

dry-goods is likely to be tremendous.

It is impossible to treat this movement, knowing as we do who originated it and why they originated it, with any sort of respect. The friends of the Union will not, spect. The friends of the Union will not, cannot, look upon it with respect. They have no more regard for secession under a white flag than under the blackest flag that ever floated at a pirate's mast-head. They recognize but one flag, the old Star-Spangled Banner, which they hope to live under and die under. It was the streaming meteor of freedom to their fathers, they are recolved. freedom to their fathers; they are resolved that it shall be the same to their children. The white upon its folds is an emblem of peace; the red proclaims to the nations that we shrink not from war; and the blue, the color of the sky, tells, that, whether in peace

To Whom it May Concevn:

AM now over 66 years of age. Three years since I became blind from Catarect in both eyes. Soon after I became blind on attempt to restore my sight by an operation was made in this city, which was unsuccessful. Hearing of the reputation of Dr. Felsom, as a skillind oculist, I was induced to consolt him, though with very little hopes of relief. The doctor proposed in operation, to which I consented, which resulted in almost Perfect Resortation of Sight to one eye. He afterwards performed an operation on the other eye with success. I am now enjoying the inestmable bleshing of good vision, and a much better general state of health than before.

The War Meeting To-Night.

The meeting called to-night in this city to take measures to aid the government in suppressing the rebellion, originated, we suppose, in a consciousness that we as a community were not doing all that we

It is also apparent that the efforts to put down the rebellion must be made now-we must this fall put a force in the field which shall not fail in its object. Because a longer delay will encourage the rebels, dispirit our own side, and invite the interference of foreign powers against us.

The time has come to act, and cannot be postponed. Now, our citizens see this, and they have called this meeting to organize themselves for action. How shall this be done? What shall we do when organized? We do not propose to dictate to this meet-

ing, and what we say are only our own ideas, which we put forth simply as suggestions. We believe this should be a county movement. If a regiment, or any smaller number of companies are to be enlisted in this locality, it evidently cannot be done by Janesville alone. Already three companies men out of a population of eight thousand is pretty well. It is the fourth part of our residents of Janesville, and it is also a fact that a number living here have enlisted in other companies.

We think, therefore, that whatever action is taken should have reference to the whole county. It has been suggested that a Rock county regiment shall be formed. This would require 800 men, rank and file, who and accomplishment, after the specimens would have to come principally from the country towns. This is undertaking coneiderable; perhaps more than we could accomplish, if the enlistment should be for

VANDERBILT STEAMERS. -- It is understood that the government is considering whether it is worth while to make an offer for the "Vanderbilt," one of Commodore Vandermodore's second offer of his fleet to the navy department, and on terms even more favorable than before. He offered to give the Vanderbilt out and out if the poverndo for the department to come under such an obligation. Vanderbilt is the richest steamboat man in this country, and one of the longest heads. He would prefer to give the ship, undoubtedly; but failing in that it would not be a bad operation to sell his fleet of nine steamers, which are now almost iions, invest the money in 7.30 stocks, and lay by for better times. Some persons thought the offer wonderfully disinterested, and insisted that the commodore should be secretary of the navy! But the fact is, we preliminary to a county meeting, which don't want such ships as his. What we should be held immediately, if it is thought | need is gunbouts, and other light draught vessels. The Vanderbilt is the only one of his ships that is strictly A. I, as she draws twenty feet of woter. The Daniel Webster a committee might be appointed for that and Sierra Nevada draw eleven feet, and might answer for some purposes, but they won't stand inspection. When told that he might have trouble, he said that he had anticipated an excitemest and had provided for contingencies by having an escort at hand. Sure enough it was not long before two hundred United States cavalry made their appearance, and it was known that five hundred United States infantry were not far off. Then Mr. Breckinridge was not so anxious as he had been to stop, the guns with fifty men, and became a member of the "peace party." So the guns, &c., were put into the wagon and taken to their destination. A Baltimore correspondence of the New

HORACE RUBLES

Chairman State Republican Central Com. Madison, August 12, 1861.

The War Meeting To-Night.

The meeting called to-night in this city to take measures to aid the government in suppressing the rebellion, originated, we suppose, in a consciousness that we as a community were not doing all that we might in that direction.

It is also apparent that the efforts to put down the rebellion must be made now-we must this fall put a force in the field which shall not fail in its object. Because a longer delay will encourage the rebels, dispirit our own side, and invite the interference of foreign powers against us.

The time has come to act, and cannot be postponed. Now, our citizens see this, and they have called this meeting to organize themselves for action. How shall this be done? What shall we do when organized?

We do not propose to dictate to this meeting, and what we say are only our own ideas, which we put forth simply as suggestions. We believe this should be a county movement. If a regiment, or any smaller number of companies are to be enlisted in this locality, it evidently cannot be done by Janesville alone. Already three companies have been formed here, and another will soon be added to the list. Four hundred ry remittances to replenish his military chest, be has a quarter of a million loan men out of a population of eight thousand is pretty well. It is the fourth part of our residents of Janesville, and it is also a fact that a number living here have enlisted in other companies.

We think, therefore, that whatever action is taken should have reference to the whole county. It has been suggested that a Rock county regiment shall be formed. This the war.

Another proposition is to form a regi- | see. spend the winter with Fremont, to be comcellent soldiers for a short campaign. A regiment of riffemen of this kind might possibly be raised better than any other.

The men of property of the county who do not intend, or have not, as a general their means to sustain the war. They should not stand back. The war is as much for the protection of property as of personal rights. Their example is needed and must be had in sustaining the expenses of culistment, and in support of the families of volunteers. Let them come forward now, and show their willingness to contribute to the patriotic fund. We believe a tax should be imposed by the county board to support the families of volunteers, that all may pay according to their means.

According to our ideas thus imperfectly broached, the meeting to-night should be preliminary to a county meeting, which don't want such ships as his. anything can be accomplished worthy of vessels. parpose.

We see how much has been accomplished in Chicago by a Union Defense Committee, who have had authority from the government to act in putting men into the field properly equipped. Why can there not be such a committee in Rock county?

We trust there will be a general attendance at the meeting to-night, and that the whole question of how we can best aid the government will be fully and dispassionately discussed.

The Union Defense Committee of New York have made a report to the common council of that city, showing how they expended the \$1,000,000 appropriated by the city, \$758,298 44 in equipping regiments, city, \$758,298 44 in equipping regiments, and \$230,000 in relieving the families of volunteers, leaving a balance of \$11,700 36. 20th.

TAKING THE RESPONSIBILITY,-Gen. Instantly on the news of danger at Bird's Point, he has steam and lightning at work to reinforce it. The moment he hears of the disaster under Gen. Lyon at Springfield, he has St. Louis under martial law to guard against the possible rising of traitors to subserve the cause of therebels and make head against the government. In three days time, having failed to receive necessafrom the banks of St. Louis, actually paid over, half in gold and half in currency, and usual voting population. It is true that the distributed to pay transportation and sup members of these companies are not all plies for an army on the march. VANDERBILT STEAMERS. - It is understood that the government is considering whether it is worth while to make an offer for the thing, many of them enlisted, should show "Vanderbilt," one of Commodore Vander-their patriotism by contributing liberally of bilt's steamers. You have seen the Commodore's second offer of his fleet to the navy department, and on terms even more favorable than before. He offered to give the Vanderbilt out and out if the govern-ment would not buy her. This would be a fine operation for him, but it would never do for the department to come under such an obligation. Vanderbilt is the richest steamboat man in this country, and one of the longest heads. He would prefer to give the ship, undoubtedly; but failing in that it would not be a bad operation to sell his fleet of nine steamers, which are new almost totally unproductive, for a couple of mil-lions, invest the money in 7.30 stocks, and lay by for better times. Some persons thought the offer wonderfully disinterested, and insisted that the commodore should be secretary of the navy! But the fact is, we should be held immediately, if it is thought need is gunboats, and other light draught anything can be accomplished worthy of the rich and populous county of Rock; and a committee might be appointed for that and Sierra Nevada draw eleven feet, and might answer for some purposes, but they won't stand inspection. Last Night's Report. New York, Ang. 26. The U.S. marshal of Rhode Island arrived here to-day, having as a prisoner of state, Wm. M. Fike, said to belong to Lovisiana, charged with attering treasonable and seditious sentiments at Newport, R. I. The gentleman from Louisiana was dis-

patched to Fort Lafavette. The following has been contributed for the benefit of families of volunteers now in the service of the United States, viz: 2,000 bags of flour containing 28 pounds each. Fifteen hundred of these are to be placed at the disposition of the Union detence committee of this city, and the remainder

A riot occurred to-day at Rendi's garden, among a lot of soldiers. Provost Marshal McKinstry at once proceeded to the ground, and succeeded in quelling it before any serious result. To prevent the daily increas ing occurrences of the kind, Major McKinstry has issued the following proclamation which will appear in the papers and go into effect to-morrow morning :

PROCLAMATION.

OFFICE OF THE PROVOST MARSHAL, St. Louis, August, 26, 1861. The disturbance of the public peace to day having been traced, by this department, to the unauthorized and improper sale of liquor to soldiers by irresponsible and ill disposed persons, it is hereby ordered that rom and after this date, until further norice, all salcons and bar-rooms, and other places kept for the retailing of spirituous or away any such intoxicating liquors or beverages, except as hereinbefore excepted, is hereby expressly forbidden. Any violation or evasion of this order will be visited with severe punishment.

WASHINGTON, Aug. 24. From a review of matters throughout McClellan's military department, I am satisfied that the north may dismiss its fears of danger to the capital. The occupation of Sandy Hook by the rebels, which took place yesterday, as I learn from private sources, does not discompose Generals Scott and McClellan. It was the natural result of orders given Gen. Banks, to fall back along the road to Frederick, and then march to a point on the Potomac near the view of placing his columns in closer cooperation with those of Stone, McCall and Smith. The latter are variously located at Pooleville, Great Falls, Chain Bridge, etc., changing ground frequently, and "uncon-querable by any force which the enemy can bring against them."

To-Day's Report. [Reported Exclusively for the Daily Cazette.] MORNING DESPATCHES.

MEW YORK, Aug. 27. The proprietors of the Daily News fearing an attack on their establishment, yes-terday applied to the the police superintendent for protection. A force of 400 police was held in reserve at the lower stations, but their services were not called into requisition. It is understood that forty men, irmed with revolvers, were retained by the

News proprietors, to meet any emergency. The Herald's Washington correspond ence, 26th, says-Notwithstanding state-ments that the rebels had retreated from the Union lines on the south side of the Potomac, on the Virginia side, we are led to believe the contrary is the fact.

On Sunday the 20th New York regiment, Col. Kerrigan, encamped near Ball's cross roads, and was ordered to occupy a posi-tion on a hill to the left of their camp. They had no sooner done so than the enemy, who has a battery within range, fired fifteen shells into the new camp, causing them to take a new position. It is suffi-ciently ascertained that the rebel battery consists of nine guns of large and improved calibre, and can reach the fortifications on the Union side. It is reported that the rebels at Leesburg, where their force is now estimated at 30,000, have taken two of the engines from the Loudon & Hampshire railroad, to be used on that line. NEW YORK, Aug. 27.

By an arrival from Antigua, in the Brit ish West Indies, we learn a demonstration took place there recently in consequence of hoisting a confederate flag from the building of the consiguees of a southern vessel. The American captain in port insisted upon its being hauled down, and the people responded by tearing it in pieces. Washington, Aug. 26.

Times' correspondence.—Gen. McClellan has added to his staff Richard B. Irwin as aid with rank of captain, and Col. Thomas E. Gault of St. Louis with rank of colonel. Col. Gault is a West Point graduate.

Hon. E. Ward, who has remained in this

city since the adjournment of congress, eaves for the west to-morrow. WASHINGTON, Aug. 26.

Tribune's correspondence.—Through the felony of some traitor, the plan of Gen. McClellan for making a reconnoisance in orce of infantry, cavalry and artillery, which might have resulted in cutting off the rebels from this side of Fairfax, was betrayed to the enemy. Hence their sudden stampede.

Letters from East Tennessee, speak of a growing rebel force at Camp Boone, near Clarksville, the head quarters of the Knights of the Golden Circle. Their plan is, after getting 10,000 men, to lay the country waste from Cumberland Gap through East Tennessee and Kentucky, to the Ohio river, and along that to Pennsylvania. The whole force not to move together, but divided into mall parties.

An attack on Tompkinsville, Tennessee, being apprehended recently, Col. Dorris collected nearly 2,000 Unionists, secured state arms for them, and awaited the rebels They disappointed him. Many of the Ten nessee 1st who won laurels in Mexico un der Col. Campbell, are joining the Union

The President directed to-day that origadier general's commission should be iven to Daniel E. Sickels. A skirmish occurred between some fifty pickets of the New York 37th and 2d Mich igan, and a party of rebels. A private of the 37th was killed, and two of the rebels and one at least, wounded.

ENGLAND, FRANCE, MEXICO AND THE UNITED STATES.—The advices from the City of Mexico, furnished by our special correspondent, are of the utmost importance. England and France, it will be seen, have suspended diplomatic relations with the Mexican government—the reason assigned being the passage by the Mexican congress of an act suspending for a time the payment of the installments due on the bonds held by creditors abroad. It is he-lieved however, that this alleged reason is only a cloak to hide the ulterior designs of these governments, which look to the destruction of the constitutional government and the establishment of a protectorate, Point of Rocks. This movement is with and perhaps to still more aggressive move ments. The supposed helpless position of the government of the United States, our correspondent thinks, has given boldness to these proceedings. While the representatives of England and France, are thus assuming an attitude of bosility to the constitutional government of Mexico. Again let me be discreet as to the numbers and locations of each division; but I may say that between Fort Washington on reference to our southern rebellion will be granted-in earnest of which a right of way has already been given for the passage of United States soldiers across Mexican territory. In connection with this matter, we may also call attention to a statement in our Washington dispatches, to the effect that the governments of E gland, France and Spain, actually contemplate the recognition of the Jeff. Davis confederacy at an early day, with a prohibition against the extension of territory a the expense of Mexico. -New York Times, Aug. 22d.

S. R. Fox, Esq., the newly appoint ed surveyor general of Utah has started for that delightful land.

THE EXCITEMENT AT LEXINGTON ABOUT LINCOLN GUNS.—The telegraph gives us the Louisville Courier's account of the excitement in Lexington, when the guns and munitions of war for the United States camp, in Garrard county, were passing through that town. We have another account from a more trustworthy source of the particulars of that affair. It appears that there was a lively sensation when it was known that the guns had arrived on the Louisville train. John C. Breckinridge is reported to have said, that if he had fifty en he would show the Lincolnites about taking those guns through town. Present ly there was a commotion. The secession ists sounded the alarm by blowing a horn and rushed to their armories. The Union Home Guards gave the alarm by ringing. bell, and repaired to their armories.

In a few minutes the streets were full of armed men who were running in all directions, loading their guns as they hurried to the places of rendezvous. The man who was to receive the guns and take them out to camp was to this time cool as a cucum ber. When told that he might have trouble, he said that he had anticipated an excitment and had provided for contingencies by having an escort at hand. Sure enough it was not long before two hundred United States cavalry made their appearance, and it was known that five hundred United States infantry were not far off. Then Mr. Breckinridge was not so anxious as he had been to stop, the guns with fifty men, and became a member of the "peace party." So the guns, &c., were put into the wagon and aken to their destination.

A Baltimore correspondence of the New

York World writes:—
A few days since I conversed with a gentheman from Virgignia, who was in the confederate army and escaped for his life, dertermined not to fight against the "stars and stripes." He informed me that he saw a letter form one of his comrades, written o his wife after the Buil's Run fight, which stated that when their regiment came into battle in the afternoon, the dead were piled up behind their entrenchments three and four deep so that it was impossible for the men to get a foothold; that they were obliged to rush forward in front of their works, and in this way were nearly cut to pieces. He put the slain of the confedrates at three housand, and said the entire army was so demoralized by the fight, that for ten days afterward it was impossible for the conmanding officer to do anything with the disheartened men.

For the Daily Gazette.

On Sunday night last, a pair of valuable borses belonging to E. G. Newhall, was stolen from his barn in Johnstown. Next morning early, the officers and members of the "Anti-Horse-Thief Society" of Johnstown were on the alert. The horses were tracked plainly on the road leading past the residence of A. M. Carter, and were seen by his hired man about 10 o'clock Sunday evening, each being ridden by a man and making good time south. Before 9 o'clock A. M., Monday, they were found near the residence of J. Chesebro in Darien, bitched to a fence. It seems the thieves had be come tired of riding on horse back without saddles, and were about helping themselves when a deg belonging to Mr. Chesebro, shut up in the barn, thought it about time ter, broke through a back window, drove off the thieves, lay down by the horses and watched them till morning. past a resident here, and is at present chief engineer of the fire department, and was, prior to this year, foreman of Rescue Hook and Ladder Company. Lieut. King has been, for several years

past, foreman of Water Witch Engine Co. No. 2, and for the last year president of the board of trustees of the department.

Both these gentlemen have ably filled the positions assigned them, as firemen, and we do not he strate to say they will discharge their duty as soldiers to the entire satisfaction of their friends. Neither of them having any surplus of this world's goods, the proposition of the firemen to present them with such things as are needful, must be gratifying to them as an appreciation not only of their past services, but of their energy in filling their company and offering the same for the defence of our country in her hour of peril. As they will remain but a short time in the state, we trust no time will be lost by the friends of the depart. ment in contributing the necessary funds.

The Janesville City Zouaves will

ing of Rescue Hook and Ladder Company, at their rooms this (Tuesday) evening, Aug. 27th, at 8 o'clock. Let there be a full at. J. H. SAUNDERS, Secretary.

For the Daily Gazette. Arms for a Home Guard.

MESSRS, EDITORS,-I noticed in the last wo issues of your paper, the suggestion, that it might be well to organize a military company in our city as a home guard.

Though not of the opinion that our city is, or ever will be in any danger of an attack from our southern foes, yet I think your suggestion a good one. As therein hinted, we have traitors in the north with whom we may yet have to contend, as well as in the south; and it well becomes us to be prepared for them, if occasion should ever so require.

Our country too, at this time, is threat ened with formidable enemies across the ocean. There is no doubt but many of the aristocrats of England, as well as the despots of Europe, would like to see the last spark of republicanism extinguished in the United States of America, as in the case of the early European republics. If they shall ever dure strike a blow in that direction, the present seems to be an auspicious time, while our country is racked with rebellion mers of the west than on the capitalists of and internal dissentions.

Then I say, let the elder men and business men, who have not yet found it necessary to enlist, and leave business and home in the support of our cause, be preparing themselves in military drill, for any emergency which may arise. Determined that our country shall ever remain a political beacon for the nations of the world, in spite of traitors, pristograts, despots and the devil, all combined.

As there will be but little probability, at the present, or for some time to come, of such an organization receiving arms of our state, I write this communication to say that, that having become the possessor of some tharty or forty rifled-muskets, now S. C. Spaulding, S. Foord, Jr., Wm. Addy, in possession of Engine Company, No. 2, in this city, I will furnish them for such a company, upon the following conditions: The muskets are all good, but have the

> old fashioned flint locks. The expense of changing them to cap locks will be from one dollar to one dollar and twenty-five Now I shall require of each individual

who may come in possession of one of these guns by joining the proposed military organization, to be at the expense of making the proposed change in the lock of control of such person so long as he shall be a member of this military organization, as hereinafter specified. But whenever any person, from choice, or any other cause, shall cease to be a member of the company, then I will take his gun and pay him for the repairs herein proposed. The guns to be kept in engine house No. 2, when not in use, and no individual shall be permitted to take any gun for private use during and N. B. Van Slyke, Esq., takes his place. We are in receipt of several other pieces | the present war, unless by consent of the from the same publishers, among which are | company, and not then for a longer period

I will assist, with others, in procuring names for such an organization, and when a sufficient number shall have been procured, the necessary officers can be elected, as provided in the statutes of this state.

My place of receiving enlistments will be at the Hyatt House. Desiring no other position than that of a high private, I am very truly, Yours,

JAMES SUTHERLAND.

God works no otherwise. No mighty birth But comes by throer of mertal agony; No man child among actions of the earth

But undeth baptism in a stormy sea. Eons of the Saints who faced their Jordan-flood In fierce Atlantic's unteresting wave— Who by the Red sea of their glotfour blood

Beneath the cloud and through the crimson nea!

THE DIRECT TAX-ITS FAIRNESS .- The Cincinnati Commercial has the following in relation to the late direct tax imposed by government: "Now, in point of fact, the direct tax falls with less weight on the far-

the east. Look at the figures: The share which Ohio has to pay of the direct tax of twenty millions is just one and one-half mills to the dollar of her landed valuation. That is for every thousand dol lar's worth of real estate, the tax is \$1,50. It is actually less than this; because a homestead valuation is exempted from taxation entirely.

Now this is the whole direct tax the far mer of Ohio has to pay. Us land being taxed, he has no further tax to pay on the income he may derive from it. How many farmers, think you, reader, will it break to pay a dollar and a half a ye ir on each thousand dollar's worth of their property?

Now look at the other side. The capitalists of New Eng and, be he merchant man ufacturer or banker, has to my three dollars on every hundred dollars o income above \$800. If he makes only ax per cent on his capital, this is \$1 80 on every thousand dollars worth he owns. Lut as six per cent, is two or three times less than the trading classes actually calculate to make on their capital, the actual tax paid by them if honestly levied and paid, will be two or three times as much, or say \$4.50 on each thousand dollars of capital. This is just three times what the farmer of the west, whose hard fate so excites the sympathies of the Enquirer, has to payou shike amount of cupital.

Besides this, the professional man, who has no capital, pays three per cent upon all that he receives over \$500 per annum, while the well-to-do tarmer, let him make never so much on his crops, pays only the one of these guns—the gun to be under the one and a half mills per dollar on the valuation of his farm.

The truth is, that although no system of taxation whatever is free from inequalities, this direct and income tax distributes the burden, as between the agricultural and other classes of citizens with a far more impartial hand than the covert enemies of the government are willing to believe. MEETING!

We have been requested by a number of citizens to announce that a meeting will be held at the

COURT ROOM in this city, on

This, Tuesday, Evening,

for the purpose of taking immediate measures to aid in sustaining the government in the suppression of the rebellion, by the formation of Military Companies.

Fire Department Meeting.

Pursuant to notice, the members of the fire department of this city met last evening at the house of Rescue Hook and Ladder Co. No. 1, when Wm. T. Paul was chosen chairman, and Edward Bassett was named secretary.

The chairman stated the object of the meeting to be, " to take such action as might be necessary to procure uniforms, swords and belts for officers of this department, who are soon to leave for the war."

On motion, the chair appointed Messrs. S. C. Spaulding, S. Foord, Jr., Wm. Addy, and Edward Bassett, as a committee to circulate a subscription to obtain necessary funds for the object above stated; when, on motion, the meeting adjourned to meet on Thursday evening next at the same time and place, to hear the report of the committee. WM. T. PAUL, Chairman.

New Music.-Gen. Fremont's Polka is is the title of a new piece of music for the piano from the publishing house of A. Judson Higgins, 40 Lake street, Chicago. It is the composition of Mrs. L. W. Powell, of Brodhead, and that it possesses great merit we are prepared to assure our musical friends, having listened to its performance with in use, and no individual shall be permitmuch pleasure.

We are in receipt of several other pieces from the same publishers, among which are songs entitled: "She came to us one Morn in May;" "Little Frock and Shoes;" very pretty pieces.

Benton McConnell has been ap pointed quartermaster of the 10th regiment Wm. Fickler, of Milwankee, bas the same appointment for the 9th regiment.

For the Daily Gazette. On Sunday night last, a pair of valuable horses belonging to E. G. Newhall, was stolen from his barn in Johnstown. Next morning early, the officers and members of the "Anti-Horse-Thief Society" of Johnstown were on the alert. The horses were tracked plainly on the road leading past the lowing articles: residence of A. M. Carter, and were seen by his hired man about 10 o'clock Sunday evening, each being ridden by a man and making good time south. Before 9 o'clock A. M., Monday, they were found near the residence of J. Chesebro in Darien, bitched to a fence. It seems the thieves had be come tired of riding on horse-back without saddles, and were about helping themselves to a carriage which was standing out doors, when a deg belonging to Mr. Chesebro, shut up in the barn, thought it about time for him to have a word to say in the matter, broke through a back window, drove off the thieves, lay down by the horses and watched them till morning. That dog de-

A GOOD MOVEMENT .- We notice that our firemen propose to procure suitable uniforms, swords and belts for Messrs. Britton and King, the Captain and 1st Lieutenant of the Janesville Fire Zonaves.

Capt. Britton has been for several years past a resident here, and is at present chief engineer of the fire department, and was, prior to this year, foreman of Rescue Hook and Ladder Company.

Lieut. King has been, for several years tial citizens. past, foreman of Water Witch Engine Co. No. 2, and for the last year president of the board of trustees of the department.

Both these gentlemen have ably filled the positions assigned them, as firemen, and we do not hesitate to say they will discharge their duty as soldiers to the entire satisfaction of their friends. Neither of them having any surplus of this world's goods, the proposition of the firemen to present them with such things as are needful, must be gratifying to them as an appreciation not only of their past services, but of their energy in filling their company and offering the same for the defence of our country in her hour of peril. As they will remain but a short time in the state, we trust no time will be lost by the friends of the depart, ment in contributing the necessary funds.

E 15 The Janesville City Zouaves will meet for drill and business to night, at 8 o'eleek, sharp.

GAGE BURGESS, Sec'y.

Notice.-There will be a special meet ing of Rescue Hook and Ladder Company, at their rooms this (Tuesday) evening, Aug. 27th, at 8 o'clock. Let there be a full attendance as there is business of importance to be transacted. By order of the Foreman' J. H. SAUNDERS, Secretary.

For the Daily Gazette Arms for a Home Guard.

Messes. Editors.—I noticed in the last two issues of your paper, the suggestion, that it might be well to organize a military company in our city as a home guard.

Missaukee, through.

Madison & Prairie du Chien, 3:25 pm 10:30 am 1:30 pm as in the south; and it well becomes us to be prepared for them, if occasion should ever so require.

Our country too, at this time, is threatened with formidable enemies across the ocean. There is no doubt but many of the aristocrats of England, as well as the despots of Europe, would like to see the last spark of republicanism extinguished in the United States of America, as in the case of the early European republics. If they shall ever dare strike a blow in that direction, the present seems to be an auspicious time, while our country is racked with rebellion and internal dissentions.

Then I say, let the elder men and business men, who have not yet found it necessary to enlist, and leave business and home in the support of our cause, be preparing themselves in military drill, for any emergency which may arise. Determined that our country shall ever remain a political beacon for the nations of the world, in spite of traitors, aristocrats, despots and the devil, all combined.

As there will be but little probability, at the present, or for some time to come, of such an organization receiving arms of our state, I write this communication to say that, that having become the possessor on every hundred dollars of income above of some thirty or forty rifled-muskets, now in possession of Engine Company, No. 2, dollars worth he owns. But as six per in this city, I will fornish them for such a cent is two or three times less than the company, upon the following conditions:

The muskets are all good, but have the old fashioned flint locks. The expense of changing them to cap locks will be from cents each.

Now I shall require of each individual who may come in possession of one of these guns by joining the proposed military organization, to be at the expense of while the weil-to-do farmer, let him make making the proposed change in the lock of one of these gans—the gan to be under the control of such person so long as he shall be a member of this military organization, as hereinafter specified. But whenever any person, from choice, or any other cause, shall cease to be a member of the company, then I will take his gun and pay him for the repairs herein proposed. The guns to be kept in engine house No. 2, when not ted to take any gun for private use during the present war, unless by consent of the company, and not then for a longer period than a day at a time.

I will assist, with others, in procuring names for such an organization, and when a sufficient number shall have been procured, the necessary officers can be elected, as provided in the statutes of this state.

My place of receiving enlistments will be at the Hyatt House. Desiring no other position than that of a high private, I am Yours, very truly,

JAMES SUTHERLAND.

The county of Cook, Ill., including the city of Chicago, has levied a tax of \$70,000 for the support of the families of volunteers.

APPOINTMENT OF SURGEONS .- L. J. Dixon, of Madison, has been appointed surgeon of the 7th regiment, and D. C. Ayres, of Green Bay, assistant.

The Stoughton Guards, Capt. Giles. arrived at Camp Randall on Saturday .--This makes six companies belonging to the

7th regiment now in camp. REBEL OPPRESSION and TYRANNY .- We would call the attention to the following extract of a letter from one of the most prominent and reliable citizens there, and what he states is undoubtedly true:

Great excitement exists in Whitley and Knox counties. About 3,000 rebel troops now bold Cumberland and Big Creek Gaps, about 1,500 at each gap. Cumberland Gap is hordeing on Knox county, Big Creek Gap on Whitley county, the former commanding the pass to the Carolinas and East Tennessec, via. Bean station, the lat-ter that through East Tennessee to Georgia and Alabama, via Knoxville.

The rebel government is plying all its arts of arbitrary oppression and tyranny upon the Joyal citizens of East Tennessee, who are flying to the Kentucky border for safety. There are now at Williamsburg about 800 Tennesseeans who have thus fied, and about 300 or 400 at Barbourville.-They are all volunteers for the Federal army, ready to be mustered into the service for three years. One company of 100 have already been mustered in. Louisville Journal, Aug. 24th.

From the Atlantic Monthly, Under the Cloud and Through the Sea

So moved they when false Pharloh's legion pressed, Charlots and horsemen following furiously;
Sons of old Israel, at their God's beheat,
Under the cloud and through the swelling sea.

So passed they, fearless, where the parted wave, With cloven crest uprearing from the sand; A solemn axisle before—behind, a grave— Rolled to the beckening of Jehovah's hand. So He led them, in desert marches grand,
By tolls sublime, with test of long delay,

By toils sublime, with test of long delse On to the borders of that Promised Land Wherein their heritage of glory lay. And Jordan raged along his rocky bed, And Amorto spears flashed keen and fearfully: Still the same pathway must their footsteps tread— Under the cloud and through the threatening sea.

God works no otherwise. No mighty birth But comes by threes of mortal agony; No man child among astrons of the earth But mudeth baptism in a stormy sea.

Sons of the Saints who faced their Jordan-flood In flerce Atlantic's unverreating wave— Who by the Red cos of their glorious blood Reached to the Freedom that your blood shall save!

O countrymen! God's day is not yet done! He leaveth not his people atterly! Count it a covenant, that the led us on Beneath the cloud and through the crimson sea! THE DIRECT TAX-ITS FAIRNESS .- The Cincinnati Commercial has the following in relation to the late direct tax imposed by

government: "Now, in point of fact, the direct tax falls with less weight on the farmers of the west than on the capitalists of the east. Look at the figures: The share which Ohio has to pay of the direct tax of twenty millions is just one and one-half mills to the dollar of her landed valuation. That is for every thousand dol lar's worth of real estate, the tax is \$1.50 It is actually less than this; because

ation entirely. Now this is the whole direct tax the far mer of Ohio has to pay. His land being taxed, he has no further tax to pay on the income he may derive from it. How man farmers, think you, reader, will it break to

homestead valuation is exempted from tax

farmers, think you, reader, will it break to pay a dollar and a half a ye iron each thousand dollar's worth of their property?

Now look at the other side. The capitalists of New England, be he increbant manufacturer or banker, has to pay three dollars on every hundred dollars of income above \$800. If he makes only six per cent on his capital, this is \$1 00 on every thousand dollars worth he owns. Eut as six per cent, is two or three times less than the trading classes actually calculate to make on their capital, the actual tax paid by them if honestly levied and paid, will be two or three times as much, or say \$4 50 on each thousand dollars of capital. This is just three times what the farmer of the west, whose hard fate so excites the sympathies of the Enquirer, has to pay on a like amount of capital.

The experience of past years has satisfied us that such an amount can be sold, if goods are offered at such figures and collars of best Madder Lawns, sold at 1824 cents, now only 1224. All our best English and Frence Organdies, cost of imperation by us at 3726, we will now sold at 1826 cents on we may 1224. Five cases of Mettled Motenne, Educate the Training of Events, Morrelias, Paris Drusillas, &c., &c. suitable for street or traveling dreases, and sold by us for foc. 1824, 0.31 cents, move only one shilling. Fifty pieces strength checked, Broche and plain Traviaras. Sold by us for foc. 1824, 0.31 cents, move only one shilling. Fifty pieces strength and plain traviaras sold by us for foc. 1824, 0.31 cents, move only one shilling. Fifty pieces strength and plain protation 2 to per yard, now offered by us at 826. Just imagine, 12 yards of Barges, cost of importation 2 to per yard, now offered by us at 826. The cases of the plain the sold, if goods are offered at such figures and sold of the specific cost of the sold of the specific of the sold of one dollar to one dollar and twenty five three times what the farmer of the west, of capital.

Besides this, the professional man, who has no capital, pays three per cent upon never so much on his crops, pays only the one and a haif rulls per dollar on the valu-

ation of his farm.

The truth is, that although no system of taxation whatever is free from inequalities, this direct and income tax distributes the burden, as between the agricultural and other classes of citizens with a far more impartial hand than the covert encuries of the government are willing to believe.

A CHANGE.-H. K. Lawrence, Esq., as sistant quartermaster general, has resigned and N. B. Van Slyke, Esq., takes his place.

panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-rided statements of their condition, and without a cash sur-plus on hand sufficient to reinsure their cutstanding risks, the above named companies always have and keep over and above their capital twice the amount, and in over and above their capital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they chain the right to look with confidence to the public for liberal patronage.

THE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but few epuals, and no superiors. They are founded upon the very best securities that they are founded upon the very best securities. nonomore design, they have but yet shates, the above perions. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below pur, and are every way nore rollable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and itable, in times of panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-side statements of their condition, and without a cash surplus on hand sufficient to roinsure their outstanding risks, the above named companies always have and keep over and above their cupital lowice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a certainty given instead of an uncertainty. All losses promptly adjusted and paid.

THE MISSOURI DEMOCRAT. PROSPECTUS FOR 1861.

CREAT INDUCEMENTS OFFERED

Getting up Clubs. Daily, Tri-Weekly and Weekly! Daily, Tri-Weekly and Weekly:

The Democrat will continue to be a fuithful advocate and supporter of the principles of the republican party. Its energies will be especially devoted to
the west—to the advocacy of western interests and the
assertion of western rights. The administration of
Abraham Lincoln shall receive its cordial and unfalterring support. The great measures of a Facinc railroad
on the central route; free lands for the landless; the
improvement of river navigation; retrenchment and
retorn in all the departments of the federal government, will be urged with that zeal and devotion which
have won for the Democrat its present position. On all
questions it will boldly espouse the right, and only seek
its advancement through the public good.

ITS NEWS, LOCAL AND MISCELLANDUS DEPARTMENTS,

ITS NEWS, LOCAL AND MISCELLANEOUS DEPARTMENTS, shall be all that readers could desire. The Political Agricultural and Manufacturing interests of the country shall receive due attention. THE COMMERCIAL CHARACTER

of the Democrat is well established. This important interest is under the management of one thoroughly familiar with compercial affairs, and we piedge our honor that its figures shall always be the true index of trade here, while it furnishes daily more commercial news than any other paper in Missouri.

DAILY GAZETTE.

From the Lanisville Journal The White Flag Movement.

We suppose that no intelligent man in the city needs to be told that the project for a peace meeting in this city last Saturday night was a secession project. It originated with secessionists, and was, so far as executed at all, executed by secessionists. It

LATEST STYLES AND PATTERNS was secessionism with its face under a white flag. Mr. Trabue, when he found the Union men to constitute seven-eighths of the courthouse meeting, called upon the "secession-isls" to go to Concert Hall, and the secessionists, and only they, went to Concert Hall, where their meeting was officered and addressed by secessionists and only by se-cessionists. They chose to make use of some Union names, but it was a trick, a fraud, an imposition.

We have all been for some time expecting that the secessionists would get up some new dodge, but none of us could guess what it would be. Nobody, we are sure, dreamed that it would be peace and white flags. If would have been laughed at. The idea that our fierce secessionists, our raging disunionists, our terrible fire-caters, our dreadful war-spirits, who, from the first, have been endeavoring to shame Kentucks from eny one had made such a suggestion, he endeavoring to shame Kentucky from her neutrality and to induce her to make common cause with the south in this horrible war, would, in the moment of their utmost desperation, their mouths frothing and their eyes bloodshot with fury, go to work in a peace-movement and cover themselves all over with white flags-the idea that these tigers, wolves, catamouts, would take the visage of lambs and insist upon following shepherds with white handkerchiefs mounted upon the ends of their crooks and flying over their sheep-cots, would have been too absurd and ludicrous not to be laughed at by every one to whom it might have been suggested.

These bogus advocates of peace passed series of resolutions. Look at the resolutions. They are a curiosity. They say nothing about the conditions of peace—they simply cry for peace. For aught that appears from them, the authors would just as soon have peace on one condition as on an other. They don't seem to care whether peace is made by the division of the Union into two confederacies, by its separation in to half a dozen confederacies, by the stipulation of the payment of tribute by the north to the south or by the south to the north, or by any other sort of treaty what-ever. Their country's honor is nothing, her prosperity nothing-peace, peace, at all hazards, peace upon any terms, is everything. And these peace people call upon their accomplices and dupes to have a white flag raising next Saturday, each one wearing a white rosette or ribbon, and invoke them to deck houses, steamboats, cars, car riages, hacks, buggies, wagons, drays, and wheelbarrows, with white flags. Fellows stuck all over with revolvers, bowies, dirks, &c., are to wave white flags in their hands as they walk the streets or step up to the bars of coffee-houses. If one of them can't conveniently get a white flag, he must throw off his coat and display his shirt, unless, like little Dicky Dout's, it happens to dis-play itself. By the way, they would make a very interesting procession, each with his "shirt-tail out"—the emblem of peace.

Our readers may remember that the adoption, or rather the pretended adoption, of armed neutrality by the Kentucky secessionas a sudden, an instantaneous thing. It was as sudden as it was universal. One day all of the secession organs and leaders in Kentucky were denouncing neutrality as the absurdest and vilest and most infamous thing ever concocted, and, two or three day. afterwards, the whole of them adopted it as their policy and pledged themselves to its scrupulous observance. The entire movement originated in a common centre of con trol, and, throughout Kentucky, it was universal. Evidently this white flag movement has originated in the same centre of control, and no doubt it is intended to be in like manner universal. Simultaneously with the manifestation in Louisville, manifestations of the same sort seem to have been made in numerous other counties. All over the state, the consumption of white

Jry-goods is likely to be tremendous. It is impossible to treat this movement knowing as we do who originated it and why they originated it, with any sort of respect. The friends of the Union will not, cannot, look upon it with respect. They have no more regard for secession under ; white flag than under the blackest flag that ever floated at a pirate's mast-head. They recognize but one flag, the old Star-Spangled Banner, which they hope to live under and die under. It was the streaming meteor of freedom to their fathers; they are resolved that it shall be the same to their children. The white upon its folds is an emblem of peace; the red proclaims to the nations that we shrink not from war; and the blue, the color of the sky, tells, that, whether in peace or in war, our appeal is to heaven.

THE ARMY AT PILOT KNOB AND IRON-TON, MISSOURL .- A gentleman of this city who has just reached Chicago, direct from Pilot Knob, (via St. Louis,) informs us that "our boys" of the Nineteenth Illinois regiment, Col. Turchin, and all the other Illinois regiments, thereabouts are very comfortably situated, and improving in health drill and efficiency every day. The Nine-teenth had one hundred and fifty-six on the sick list when they reached Pilot Knob, and now the sick list has dwindled down to only

nine. Our informant says when he left Pilot Knob on Saturday, a federal army of nine thousand men had been gathered there, and the line of the Iron Mountain Railroad is literally dotted with camps of detachments of regiments or companies, who are guarding the bridges, culverts and track.

The officers at Ironton and Pilot Knob feel perfectly confident now of their ability to repel Hardee's rebel army, should they make an attack, as it is expected and hoped they soon will. Our artillery commands the approaches from every direction, and the troops are increasing in numbers and improving in efficiency continually.

At the head quarters of Gen. Fremont,

at St. Louis, great activity is apparent .-Fresh regiments and companies continue to arrive, and on every hand are seen "the pomp and circumstance of war."- Chicago MILITARY TACTICS.

The War Meeting To-Night.

The meeting called to-night in this city to take measures to aid the government in suppressing the rebellion, originated, we suppose, in a consciousness that we as a community were not doing all that we might in that direction.

It is also apparent that the efforts to put down the rebellion must be made now-we must this fall put a force in the field which shall not fail in its object. Because a longor delay will encourage the rebels, dispirit our own side, and invite the interference of foreign powers against us.

The time has come to act, and cannot be postponed. Now, our citizens see this, and ther have called this meeting to organize themselves for action. How shall this be done? What shall we do when organized?

We do not propose to dictate to this meeting, and what we say are only our own ideas, which we put forth simply as suggestions. We believe this should be a county movement. If a regiment, or any smaller number of companies are to be enlisted in this locality, it evidently cannot be done by Janesville alone. Already three companies have been formed here, and another will soon be added to the list. Four hundred men out of a population of eight thousand is pretty well. It is the fourth part of our usual voting population. It is true that the members of these companies are not all residents of Janesville, and it is also a fact that a number living here have enlisted in other companies.

We think, therefore, that whatever action is taken should have reference to the whole county. It has been suggested that a Rock county regiment shall be formed. This would require 866 men, rank and file, who and accomplish would have to come principally from the country towns. This is undertaking considerable; perhaps more than we could accomplish, if the enlistment should be for the war.

Another proposition is to form a regiment of five or six months men, who could spend the winter with Fremont, to be composed of persons who by reason of age or business engagements, could not enlist for tive charges, with all the vigor, organization the war. There are many of this class who and skill which they are so emineutly capawere the pioneers in the country, over forty-five years of age, who would make excellent soldiers for a short campaign. A regiment of riflemen of this kind might possibly be raised better than any other.

The men of property of the county who do not intend, or have not, as a general thing, many of them enlisted, should show their patriotism by contributing liberally of bilt's steamers. You have seen the Comtheir means to sustain the war. They should not stand back. The war is as much for the protection of property as of personal rights. Their example is needed and must be had in sustaining the expenses of enlistment, and in support of the families of volunteers. Let them come forward now, and show their willingness to contribute to the patriotic fund. We believe a tax should be imposed by the county board to support the families of volunteers, that all may pay according to their

According to our ideas thus imperfectly broached, the meeting to-night should be preliminary to a county meeting, which should be held immediately, if it is thought anything can be accomplished worthy of the rich and populous county of Rock; and a committee might be appointed for that and Sierra Nevada draw eleven feet, and

We see how much has been accomplished in Chicago by a Union Defense Committee, who have had authority from the government to act in putting men into the field properly equipped. Why can there

not be such a committee in Rock county? We trust there will be a general attendance at the meeting to-night, and that the whole question of how we can best aid the government will be fully and dispassionate-

ly discussed. The Union Defense Committee of New York have made a report to the common council of that city, showing how they expended the \$1,000,000 appropriated by the city, \$758,298 44 in equipping regiments, and \$230,000 in relieving the families of volunteers, leaving a balance of \$11,700 36. 20th.

TAKING THE RESPONSIBILITY .- Gen. Fremont manifests no hesitancy in taking military responsibility upon his shoulders, and manifests a spirit of resolution, energy and dogged perseverance in overcoming obsta cles, which are amazing to witness. Instantly on the news of danger at Bird's Point, he has steam and lightning at work o reinforce it. The moment he hears of the disaster under Geo. Lyon at Springfield, he has St. Louis under martial law to guard against the possible rising of traitors o subserve the cause of the rebels and make head against the government. In three days time, having failed to receive necessary remittances to replenish his military chest, he has a quarter of a million loan from the banks of St. Louis, actually paid over, half in gold and half in currency, and distributed to pay transportation and sup plies for an army on the march. The menace of danger being withdrawn from Cairo and Bird's Point, he has the guns and rein forcements which were gathered there planted at Pilot Knob, the terminus of the Iron Mountain railroad, to check the advance of Hardee or Pillow in the direction of that important thoroughfure, leading directly north to St. Louis.

Such unexampled and sleepless activity ent, after the specimens of military old fogyism which have presided over things at Washington, and which kept that wretched faineaut Gen. Patterson at the head of the most important advance column of our army for weeks, after he had been found worse than worthless to the goverament, are inexpressibly refreshing to see. Let us hope that the day of dallying with this rebell on is ended forever, and that McClellan, Fremont, Banks, Wool and Rosencranz will be suffered to make a clean sweep of the work entrusted to their respecble of wielding. It we have been out generated hitherto in the conduct of this great campaign (and who will now deny that we bave been?) let that reproach cease hence-forward.—St. Louis Cor. Cin. Commercial.

VANDERBILT STEAMERS .- It is understood that the government is considering whether is worth while to make an offer for the "Vanderbilt," one of Commodore Vandermodore's second offer of his fleet to the navy department, and on terms even more favorable than before. He offered to give the Vanderbilt out and out if the government would not buy her. This would be a fine operation for him, but it would never do for the department to come under such an obligation. Vauderbilt is the richest steamboat man in this country, and one of the longest heads. He would prefer to give the ship, undoubtedly; but failing in that it would not be a bad operation to sell bis fleet of cine steamers, which are new almost totally unproductive, for a couple of millious, invest the money in 7.30 stocks, and lay by for better times. Some persone thought the offer wonderfully disinterested and insisted that the commodore should be secretary of the navy! But the fact is, we don't want such ships as his. What we need is gunboats, and other light draught The Vanderbilt is the only one of vessels. his ships that is strictly A 1, as she draws twenty feet of woter. The Daniel Webster might answer for some purposes, but they won't stand inspection. Besides, several of the steamers, including the Vanderbilt, have beam engines, which are very objectionable

Albert Pike, the Indian's friend, acting as commissioner of the confederate states, is forming alliances with most noted tribes of the west. Even the wild Camanches, heretofore untamable, are about to be brought under the protection and influence of the confederate government, and muster-ed into the service of the confederate states. It will be a grand sight to see a cavalry brigade of those wild and fierce horsemen of the desert subjected to the discipline of civilized warfare, fighting the battles of the south. WASHINGTON, Aug. 24. From a review of matters throughout McClellan's military department, I am satisfied that the north may dismiss its fears of danger to the capital. The occupation of Sandy Hook by the rebels, which took place yesterday, as I learn from private sources, does not discompose Generals Scott and McClellan. It was the natural result of orders given Gen. Banks, to fall back along the road to Frederick, and then march to a point on the Potomac near Point of Rocks. This movement is with the view of placing his columns in closer cooperation with those of Stone, McCail and Pooleville, Great Falls, Chain Bridge, etc., changing ground frequently, and "uncon-querable by any force which the enemy can

bring against them." Again let me be discreet as to the numbers and locations of each division; but I may say that between Fort Washington on the south, Frederick city on the north, and our Arlington outposts on the south-west, one hundred and ten thousand federal troops are under arms, and can be concentrated in a day at any point of action. We are adding largely, also, to our artillery and cavalry force. If Gen. Scott has made any error hitherto, it has been in overlooking the essential part that these arms of the service, especially the former, have played in modern warfare. Artillery is Gen. Mc-Clellan's favorite arm, and will be used in the next battle, I predict, with terrible thun-

der and effect. Dr. Lewis, of the 2d regiment, pris-

They had no sooner done so than the ene my, who has a battery within range, fired filteen shells into the new camp, causing them to take a new position. It is sufficiently ascertained that the rebel battery consists of nine guns of large and improv ed calibre, and can reach the fortifications on the Union side. ENGLAND, FRANCE, MEXICO AND THE UNITED STATES .- The advices from the City of Mexico, furnished by our special correspondent, are of the nimost importnce. England and France, it will be seen, have suspended diplomatic relations with the Mexican government—the reason as signed being the passage by the Mexican congress of an act suspending for a time the payment of the installments due on the bonds held by creditors abroad. It is believed however, that this alleged reason is only a cloak to hide the ulterior designs of these governments, which look to the destruction of the constitutional government and the establishment of a protectorate and perhaps to still more aggressive move-ments. The supposed helpless position of the government of the United States pperation with those of Stone, McCail and Smith. The latter are variously located at Pooleville, Great Falls, Chain Bridge, etc., hanging ground frequently, and "unconthus assuming an attitude of hostility to the constitutional government of Mexico, the American minister, Mr. Corwin, is growing in favor. In fact, it is pretty well understood that whatever he may ask with reference to our southern rebellion will be granted-in earnest of which a right of way has already been given for the passage of United States soldiers across Mexican territory. In connection with this matter we may also call attention to a statement in our Washington dispatches, to the effect that the governments of E gland, France and Spain, actually contemplate the recog nition of the Jeff. Davis confederacy at an early day, with a prohibition against the extension of territory a the expense of Mexico. -New York Times, Aug. 22d.

THE EXCITEMENT AT LEXINGTON ABOUT LINCOLN GUNS .- The telegraph gives us the Louisville Courier's account of the excitement in Lexington, when the guns and munitions of war for the United States camp, in Garrard county, were passing through that town. We have another ac count from a more trustworthy source of the particulars of that affair. It appears that there was a lively sensation when it was known that the guns had arrived on the Louisville train. John C. Breckinridge is reported to have said, that if he had fifty men he would show the Lincolnites about tuking those guns through town. Present ly there was a commotion. The secessionists sounded the alarm by blowing a horn, and rushed to their armories. The Union Home Guards gave the alarm by ringing a

bell, and repaired to their armories. In a few minutes the streets were full of armed men who were running in all directions, loading their guns as they burried to the places of rendezvous. The man who was to receive the guns and take them out to camp was to this time cool as a cucum-ber. When told that he might have trouble, he said that he had anticipated an excite ment and had provided for contingencies by having an escort at hand. Sure enough it was not long before two hundred United States cavalry made their appearance, and it was known that five hundred United States infantry were not far off. Then Mr. Breckinridge was not so anxious as he had been to stop the guns with fitty men, and became a member of the "peace party." So the guns, &c., were put into the wagon and taken to their destination.

A Baltimore correspondence of the New

York World writes:

A few days since I conversed with a gentleman from Virgignia, who was in the confederate army and escaped for his life, dertermined not to fight against the "stars and stripes." He informed me that he saw letter form one of his comrades, written to his wife after the Bull's Run light, which stated that when their regiment came into battle in the afternoon, the dead were piled up behind their entreuchments three and tour deep so that it was impossible for the men to get a foothold; that they were obligen to rush forward in front of their works, and in this way were nearly cut to pieces. He put the slain of the confedrates at three thousand, and said the entire army was so demoralized by the fight, that for ten days afterward it was impossible for the commanding officer to do anything with the

COURT ROOM in this city, on

This, Tuesday, Evening, for the purpose of taking immediate measures to aid in sustaining the government in the suppression of the rebellion, by the formation of Military Companies.

Fire Department Meeting.

Pursuant to notice, the members of the fire department of this city met last evening at the house of Rescue Hook and Ladder Co. No. 1, when Wm. T. Paul was chosen chairman, and Edward Bassett was named secretary.

The chairman stated the object of the meeting to be, " to take such action as might be necessary to procure uniforms, swords and belts for officers of this department, who are soon to leave for the war."

On motion, the chair appointed Messrs. S. C. Spaulding, S. Foord, Jr., Wm. Addy, and Edward Bassett, as a committee to circulate a subscription to obtain necessary funds for the object above stated; when, on motion, the meeting adjourned to meet on Thursday evening next at the same time and place, to hear the report of the committee. WM. T. PAUL, Chairman.

EDWARD BASSETT, Secretary. Janesville, Aug. 27th, 1861.

TRINITY CHURCH.—The annual renting of slips in Trinity Church will take place on Monday, Sept. 2d, at 10 o'clock Δ. M., in aug23d7d the church.

New Music.—Gen. Fremont's Polka is is the title of a new piece of music for the piano from the publishing house of A. Judson Higgins, 40 Lake street, Chicago. It is the composition of Mrs. L. W. Powell, of Brodhead, and that it possesses great merit | for the repairs herein proposed. The guns we are prepared to assure our musical friends, to be kept in engine house No. 2, when not having listened to its performance with in use, and no individual shall be permitmuch pleasure.

from the same publishers, among which are company, and not then for a longer period songs entitled : "She came to us one Morn than a day at a time. in May;" "Little Frock and Shoes;" very pretty pieces.

Benton McConnell has been appointed quartermaster of the 10th regiment. Wm. Fickler, of Milwaukee, has the same appointment for the 9th regiment.

For the Daily Gazette. On Sunday night last, a pair of valuable horses belonging to E. G. Newhall, was stolen from his barn in Johnstown. Next morning early, the officers and members of town were on the alert. The horses were tracked plainly on the road leading past the lowing articles: residence of A. M. Carter, and were seen by his hired man about 10 o'clock Sunday evening, each being ridden by a man and making good time south. Before 9 o'clock A. M., Monday, they were found near the residence of J. Chesebro in Darien, bitched to a fence. It seems the thieves had be come tired of riding on horse-back without saddles, and were about belping themselves to a carriage which was standing out doors, when a deg belonging to Mr. Chesebro, shut up in the barn, thought it about time for him to have a word to say in the matter, broke through a back window, drove off the thieves, lay down by the horses and watched them till morning. That dog deserves a pension.

A GOOD MOVEMENT.-We notice that our firemen propose to procure suitable uniforms, swords and belts for Messrs. Britton and King, the Captain and 1st Lieutenant of the Janesville Fire Zouaves.

Capt. Britton has been for several years past a resident here, and is at present chief engineer of the fire department, and was, prior to this year, foreman of Rescue Hook and Ladder Company.

Lieut. King has been, for several years past, foreman of Water Witch Engine Co. No. 2. and for the last year president of the board of trustees of the department.

Both these gentlemen have ably filled the positions assigned them, as firemen, and we do not hesitate to say they will discharge ing any surplus of this world's goods, the Green Bay, assistant. proposition of the firemen to present them with such things as are needful, must be gratifying to them as an appreciation not only of their past services, but of their energy in alling their company and offering the same for the defence of our country in her hour of peril. As they will remain but a short time in the state, we trust no time

ment in contributing the necessary funds. I BEL The Janesville City Zonaves will o'clock, sharp.

GAGE BURGESS, Sec'y.

Notice.—There will be a special meeting of Rescue Hook and Ladder Company, at their rooms this (Tuesday) evening, Aug. 27th, at 8 o'clock. Let there be a full attendance as there is business of importance to be transacted. By order of the Foreman' J. H. SAUNDERS, Secretary.

from Milwaukee who was so badly wounded at the battle of Falling Waters, is so far renezt week.

For the Daily Gazette Arms for a Home Guard.

MESSES. EDITORS .- I noticed in the last two issues of your paper, the suggestion, that it might be well to organize a military company in our city as a home guard.

Though not of the opinion that our city is, or ever will be in any danger of an attack from our southern foes, yet I think your suggestion a good one. As therein hinted, we have traitors in the north with whom we may yet have to contend, as well as in the south; and it well becomes us to be prepared for them, if occasion should ever so require.

Our country too, at this time, is threat ened with formidable enemies across the ocean. There is no doubt but many of the aristocrats of England, as well as the despots of Europe, would like to see the last spark of republicanism extinguished in the United States of America, as in the case of the early European republics. If they shall ever dare strike a blow in that direction, the present seems to be an auspicious time, while our country is racked with rebellion and internal dissentions.

Then I say, let the elder men and business men, who have not yet found it necessary to enlist, and leave business and home in the support of our cause, be preparing themselves in military drill, for any emergency which may arise. Determined that our country shall ever remain a political beacon for the nations of the world, in spite of traitors, aristocrats, despots and the devil, all combined.

As there will be but little probability, at the present, or for some time to come, of such an organization receiving arms of our state. I write this communication to say that, that having become the possessor of some thirty or forty rifled-muskets, now n possession of Engine Company, No. 2, in this city, I will furnish them for such a company, upon the following conditions:

The muskets are all good, but have the old fashioned flint locks. The expense of changing them to cap locks will be from one dollar to one dollar and twenty-five cents each.

Now I shall require of each individual who may come in possession of one of these guns by joining the proposed military organization, to be at the expense of making the proposed change in the lock of one of these guns-the gun to be under the control of such person so long as he shall be a member of this military organization, as hereinafter specified. But whenever any person, from choice, or any other cause, shall cease to be a member of the company, then I will take his gun and pay him ted to take any gon for private use during We are in receipt of several other pieces the present war, unless by consent of the

I will assist, with others, in procuring names for such an organization, and when a sufficient number shall have been procared, the necessary officers can be elected, as provided in the statutes of this state. My place of receiving enlistments will be at the Hyatt House. Desiring no other position than that of a high private, I am very truly, Yours,

JAMES SUTHERLAND.

From the Atlantic Monthly. Under the Cloud and Through the Sea

So moved they when false Pharioh's logiou pressed, Charlots and horsemen following formars. Charlots and horsemen following furiously; Sons of old Israel, at their God's behest, Under the cloud and through the swelling sea.

So passed they, fearless, where the parted wave, With cloven creet uprearing from the sand; A solemn aisle before—behind, a grave— Rolled to the beckoning of Jehovah's band.

So He led them, in desert marches grand, By tolls sublime, with test of long delay, On to the borders of that Promised Lan Wherein their heritage of glory lay.

And Jordan raged along his rocky bed, And Amorite spears flashed keen and fearfully; Still the same pathway must their footsteps tread— Under the cloud and through the threatening sea. God works no otherwise. No mighty birth But comes by threes of mortal agony;

But comes by throes of mortal agony; No man child among cations of the earth But modeth haptism in a stormy sea. Sons of the Saints who faced their Jordan-flood In flerce Atlantic's unretreating wave— Who by the Red sea of their glorious blood Reached to the Freedom that your blood shall save

THE DIRECT TAX-ITS FAIRNESS.-The Cincinnati Commercial has the following in relation to the late direct tax imposed by government: "Now, in point of fact, the direct tax falls with less weight on the farmers of the west than on the capitalists of

the east. Look at the figures:
The share which Ohio has to pay of the direct tax of twenty millions is just one and one-half mills to the dollar of her landed valuation. That is for every thousand dol lar's worth of real estate, the tax is \$1,50. It is actually less than this; because homestead valuation is exempted from taxation entirely.

Now this is the whole direct tax the far mer of Ohio has to pay. His land being taxed, he has no further tax to pay on the income he may derive from it. How many farmers, think you, reader, will it break to pay a dollar and a half a year on each thousand dollar's worth of their property?

Now look at the other side. The capitalists of New Eng and, be he merchant man-ofacturer or banker, has to pay three dollars on every hundred dollars of income above \$800. If he makes only six per cent on his capital, this is \$1 co on every thousand dollars worth he owns. But as ax per cent, is two or three times less than the uading classes actually calculate to make on their capital, the actual tax paid by them if honestly levied and paid, will be two or three times as much, or say \$4 50 on each thousand dollars of capital. This is just three times what the farmer of the west, whose hard fate so excites the sympathies of the Enquirer, has to payonalike amount of capital.

Besides this, the professional man, who has no capital, pays three per cent upon all that he receives over \$500 per annum, while the well-to-do farmer, let him make never so much on his crops, pays only the one and a half mills per dollar on the valu

ation of his farm.

The truth is, that although no system of taxation whatever is free from inequalities, this direct and income tax distributes the burden, as between the agricultural and other classes of citizens with a far more impartial hand than the covert enemies of the government are willing to believe.

A CHANGE.-H. K. Lawrence, Esq., assistant quartermaster general, has resigned and N. B. Van Slyke, Esq., takes his place.

STATE FAIR POSTPONED .- The executive committee of the State Agricultural Society have postponed the state fair in consequence of the occupation of the fair grounds by regiments quartered there.

CAPITAL AND SUBILUE,

1 HE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honarable dealing, they have but fow opular, and no superiors. They are founded upon the very best securities in the world—first class bonds and meritages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital luste the amount, and in nost instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by flutual Companies, and a certainly given instead of an associative. All lossos promptly adjusted and paid. HERRY C. SPYLKING, Etq.
